

2017 IEEE/SICE International Symposium on System Integration (SII2017)

Special Session on

“System Integration for Decommissioning of Nuclear Facilities”

organized by

Principal Organizer: Prof. Hajime Asama (asama@robot.t.u-tokyo.ac.jp)
University of Tokyo, Japan

Organizer 1: Dr. Kuniaki Kawabata (kawabata.kuniaki@jaea.go.jp)
Japan Atomic Energy Agency, Japn

Organizer 2: Dr. Yusuke Tamura (tamura@robot.t.u-tokyo.ac.jp)
University of Tokyo, Japan

Call for Papers

Theme: Since the high radiation environment like Fukushima Daiichi Nuclear Power Station is harmful for human workers, it is necessary to develop robot and other technologies for nuclear decommissioning. The objective of this special session is to discuss technologies related to decommissioning of Nuclear Facilities.

Topics of interest include, but are not limited to:

- Robot technologies
- Radiation imaging
- Radiation-resistant devices
- System integration
- Flexible and soft sensors

Submissions Procedure: All the instructions for paper submission are included in the conference website <http://www.sii2017.org> . A good quality paper may be considered for publication in IEEE Transactions on Industrial Informatics subjects to further rounds of review

Deadlines:

Reception of full paper:	June 30, 2017
Paper acceptance notification:	September 20, 2017
Camera ready paper reception:	October 20, 2017
